

Sales Distribution Dashboard.

USING EXCEL

PROJECT OVERVIEW:

To build a dynamic sales distribution dashboard that tracks sales performance across different regions, products, and time periods.

Excel worksheet includes:

This includes the data of the year 2021 Sales distribution of different products all over the world.

- Input Data.
- Target Data.
- Customer Data.
- Analysis.
- Final Dashboard.

Data Modelling:

- Input data is cleaned and modified using VLOOKUP(mainly) and other excel formulas, from target and customer data.
- Depending on the modified input data a analysis sheet is created using pivot table for data visualization process.
- Different charts are created and other data visualization for better understanding using the pivot tables from analysis sheet.
- Slicers are used to see the changes for the each month and every region all over the world in the dashboard.
